in determining the eligibility of the prospective student. An applicant who demonstrates intellectual promise and moral character may continue the admissions procedure by submitting a completed Admissions Form to the Registrar. The Registrar will provide these forms to qualifying applicants.

Students can enter at the beginning of any session, although it is generally recommended that they apply for initial admission in the fall session.

TRANSFER STUDENTS AND ADVANCED STANDING

Students who wish to enter the institution from other accredited schools must submit an official transcript of their educational background and appear for a personal interview before admission. In the event that an official transcript is immediately available, a student may be admitted on a provisional basis at the discretion of the Hanhala. Advanced standing will be determined on a case by case basis.

The transfer of credit policy for undergraduate programs is as follows: In most cases, we will accept up to two years of earned credits with a grade of B or higher from accredited, like institutions, i.e., other Rabbinical Colleges. Additional credit may be accepted following case-by-case evaluation by Registrar and Rosh HaYeshiva.

We will evaluate credits earned with a grade of B or higher from non-accredited like institutions on a case by case basis.

A student who wishes to transfer credits to Rabbinical College of Telshe from another previously attended institution, must submit a certified, signed transcript from that institution to our Registrar. The transcript will be reviewed by the Registrar, who will recommend to the Hanhala the total number of credits to be accepted. Following a personal interview with the prospective candidate for admission, the Hanhala will make a final determination as to the total number of credits to be accepted. Notification of this determination will be provided to the Registrar, who will inform the student of this determination and incorporate the transfer credit into the student's academic file, resulting in an adjustment in the student's academic level.

The cumulative transcript which is generated at the end of the next academic period will reflect this adjustment and will note the total number of credits accepted from each previous institution.
